# Caleb Adams Wiese

434-218-5048 | calebwiese18@gmail.com | www.linkedin.com/in/caleb-wiese | calebwiese.com

## EDUCATION

**University of Virginia School of Engineering & Applied Science** **2024 - Present**

*Candidate for Bachelor of Science in Electrical Engineering* Anticipated Graduation: May 2028

- GPA: 3.46/4.00

**Math, Engineering, and Science Academy (MESA) at Albemarle High School** **2020 - 2024**

- GPA: 4.74 (weighted)

## HONORS / AWARDS

**HooHacks 2026** **January 2026**

*3rd Place Finisher*

- Competed against 222 project teams representing 750 students from across the US in an engineering and entrepreneurship competition, finishing in 3rd place (top 1%).
- Designed and prototyped *ScamShield*, a Raspberry Pi device that detects phone scams targeting senior citizens in real time and automatically alerts trusted family members.
- Engineered the alert notification pipeline end-to-end (Python/FastAPI, ElevenLabs voice synthesis, Next.js/TypeScript dashboard) as part of a 3-person team under a 24-hour deadline.

## JOB EXPERIENCE

**Albemarle County Parks and Recreation, Charlottesville, VA** **Summers 2025 - 2026**

*Head Lifeguard*

- Led and supervised a team of lifeguards across two summer seasons, coordinating daily operations and safety protocols for a high-traffic public facility.
- Served as on-site authority for safety and emergency decisions, taking ownership of incident response and staff coordination.

**Blackmarker, Charlottesville, VA** **Summer 2024**

*Data Specialist*

- Assisted in the development of AI-powered document redaction software.
- Tagged data for random forest AWS Sagemaker model.

## OTHER EXPERIENCE

**Research Assistant — Portable MRI, University of Virginia** **8/2026 - Present**

- Conducting hardware research on a portable MRI system under Professor Jacob as part of a 4-person team, focusing on electromagnetic interference (EMI) noise cancellation.

**Relevant Class Experience** - Introduction to Embedded Computer Systems, Solid State Devices, Intro to Machine Learning, Electronics, Signals & Systems, Digital Logic Design, Applied Circuits, CSO1, Engineering Foundations 2

**Programming/Software Experience -** VHDL, Verilog, Quartus, ModelSim, KiCad, VSCode, Colab, WaveForms, Python, MATLAB, Java, Excel
